

Get Better Together is a free, group-based, self-management program for people with ongoing health issues. It is based on a program model developed by the Patient Education Research Centre at Stanford University. The in-person program runs 2.5 hours a week for six weeks and is led by people who are also dealing with an ongoing health condition. Each session helps participants solve problems and set goals to take control of their health. The program is also available in an online format.

Please complete the following:

Name: _____ DOB: _____
Address: _____ City: _____ Province: _____ Postal Code: _____
Home phone #: _____ Cell #: _____
